hush now and start googling for DUAL SEQUENCE VIRAL GENE SPLICING labs. Funny enough Vector labs came up on first page. I don't speak medfag so not sure if it's related to the dual sequence method or not.

>DUAL SEQUENCE VIRAL GENE SPLICING

Im getting vector and the one in canada

> Natural Sciences and Engineering Research Council of Canada. Grant Numbers: RGPIN-03736-2017, RGPIN-2016-03916

im guessing the last is in gooksville, specifically the wuhan lab associated with the canadian one those two were ousted from

I dont have access to galenet anymore, otherwise sourcing this would be a joke thanks to stem-tism regarding sourcing the sandwich you had while writing a paper
